Vision

"Vichaivej International Hospital Group is strongly determined to be the leading hospital that operates at international standard level by using modern technology and medical equipment, engaging teams of specialist physicians from every field, and upholding strict moral and ethical principles."

Mission

"We are firmly determined to provide medical care service that is based on holistic professional standards through use of quality tools and qualified staffs and by adopting a service recipient-centric approach in order to be sure that our service recipients receive utmost satisfaction."

Core Value

1. Working with systems based on good governance.
2. Customer focus
3. Support empowered decision-making.
4. Continuous development
5. Teamwork

Business Objective

Vichaivej International Hospital Group's operation focuses on providing superb quality services for patients and others who visit the hospital and on engaging specialized medical treatment combined with preventive measures under the slogan "V care V cure V can". Our objectives are as follows.

1. Develop the hospital group to become one of the leading private hospital groups that is equipped with treatment capability in every field of medicine, with emphasis on accident and Orthopedic care. The objective is to become a medical center for specific disease and eventually escalating into Tertiary Medical Care, involving development of necessary medical personnel and modern diagnostic and treatment facilities ready to administer complicated diseases.

2. Set high standards for quality and service and focus on being customer-centric with a genuine belief that "customers are highly valued individuals which every hospital personnel has to pay close attention and ensure that they receive proper medical treatment, health care, and various services available at the hospital in a proper manner and according to professional standards, which in all creates utmost satisfied experience for the customers."

3. Establish efficient organizational management process and proper human resources management system that give priority to every single employee, by enhancing the quality, skills, and knowledge of all level staff on a regular basis, meanwhile creating a culture that allows a free exchange of ideas and opinions in order to build a sense of ownership and strong commitment among the employees with the hospital.

4. Develop quality and management operations to be more systematic and consistent by connecting and fostering joint work between management and quality development teams that will enable us to set our goal of improving the quality of medical care and service. The ensuing focus is to reduce risks in terms of medication administration and medical records, complaints, nursing practice, etc. in order to establish patient safety goal and customer satisfaction.

5. Explore opportunities for business or product line expansion by increasing the number of specialty clinics and developing such clinics to serve as integrated specialized centers, to be in line with the company's mission to expand its customer base in the country and abroad.

6. Give priority and social responsibility attention to society and community where hospital is located by promoting safety and good hygiene as well as environment protection care on a regular basis.

Message from the Chairman

Vichaivej International Hospital Group generated good operating results of the first half of 2020. Once COVID-19 greatly spread in Thailand in April 2020, the Government announced the emergency decree as well as “Stay at Home” policy. Some businesses had to close down, and many businesses partially closed and their employees had to work from home. Similarly, the hospital has to ultimately prepare to protect all patients, medical teams and officers from infection in the hospital. Moreover, the hospital launched preventive measures for patients with aim to provide the best treatment based on medical standards.

The hospital prepared tools, renovated facilities, trained officers, and arranged screening points as to ensure safety in the hospital, and be ready to treat patients who travelled from abroad which resulted higher costs. While the global and Thai economies are weakening, purchasing power is shrinking which heavily affects all industries including hospitals. Some businesses have to close their operations.

However, the management of Vichaivej International Hospital Group has changed services to reach customers through Home Healthcare service by utilizing social media to communicate with customers. The service provides medical advices by physicians and deliver medication to patients’ houses. Furthermore, the Group has launched promotions that customers can receive services with cheaper price.

Operating results in 2020 might not be outstanding like the past years, but it was quite good comparing to peers. The Company’s BOD commits to steadily operate the business with full effort together with the growth of Thai society and global society.

We are proud to inform the shareholders that Srivichai Vejvivat Public Company Limited was evaluated by Thai Institute of Directors and the Stock Exchange of Thailand to be a listed company with excellent CG scoring. Moreover, the Company was certified to be under the Private Sector Collective Action Coalition Against Corruption. Last but not least, the Company was evaluated by Thai Shareholder Association to be the Company with excellent meeting arrangement with scores of 99%.

Assoc.Prof.Vichai Vanadurongwan,

Policy and Business Overview

Srivichai Vejvivat Public Company limited (“Company” or “VIH”) was established in 1993 in order to operate a private hospital business under the name Vichaivej International Hospital Omnoi which is a hospital under Vichaivej International Hospital Group. In 1993 when the Company was established, its registered capital was 200 million Baht with major shareholders and controlling directors being Assoc. Prof. Vichai Vanadurongwan, M.D., Ph.D., FIMS and Asst. Prof. Saisunee Vanadurongwan, M.D., who is founder of the hospital Group.

In 2008, the Company reorganized its structure by purchasing ordinary shares of Saivichai Development Company Limited and Srisakorn Vejavit Company Limited from the Directors who were former shareholders in order to rearrange the investment structure of the Company that would suit the business operating nature as a hospital Group, with Saivichai Development Company Limited and Srisakorn Vejavit Company Limited being subsidiary companies.

At the beginning of 2011, Vichaivej International Hospital Group underwent a corporate re-branding to become more modern and be able to reflect the hospital group's ability in elevating its service potential and undergoing continuous development as well as maintaining

consistency with the Company's vision of wanting to expand its service to reach foreign customers on a wide scale. The hospital group had changed its name from Srivichai Hospital Group to Vichaivej International Hospital Group and underwent logo change as well.

In 2012, the Company registered as listed securities in the SET with total registered capital of 535 million Baht, divided into 535 million ordinary shares valued at 1.00 Baht per share in which the 535 million Baht was paid-up capital.

In 2014, the Company increased its registered capital at 35,666,666 Baht, which led the new registered capital to be 570,666,666 Baht from originally 535,000,000 Baht, by issuing additional 35,666,666 million ordinary shares valued at 1.00 Baht per share in which the 570,665,433 Baht was paid-up capital.

In the same year, BBT Equity Company Limited bought the Company's shares at 20% of total shares in the Company which brought about change in the major shareholder group of the Company. The change was executed in order to support expansion of hospital care business and increase the variety of medical service to be more comprehensive in the future.

In the year 2016, The meeting had approved the entering into the acquisition of asset by the acquisition of The Bangkok Orthopedic Hospital Company Limited's ordinary shares, in the number of 89,998 shares or equivalent to 99.99 percent of total registered capital from the existing shareholders, The company had been signed the Share Purchase Agreement relating to the ordinary shares of The Bangkok Orthopedic Hospital Company Limited on 28 June 2016

As of 31 December 2020, the Company has total registered capital of 570,666,666 Baht, divided into 570,666,666 ordinary shares valued at 1.00 Baht per share in which 570,665,433 Baht was paid-up capital.

At present, Vichaivej International Hospital Group runs secondary general hospital business with 4 hospitals within the Group, that is, 1) Vichaivej International Hospital Omnoi; 2) Vichaivej International Hospital Nongkhaem; 3) Vichaivej International Hospital Samutsakhon; and 4) Vichaivej Yeakfaichai, being operated by the Company. The subsidiary companies comprise Srivichai Vejvivat Public Company limited, Saivichai Development Company Limited, Srisakorn Vejvivat Company Limited, and The Bangkok Orthopedic Hospital Company Limited, respectively. In addition, the Company also has another subsidiary company, Srivichai Vocational School Company limited, which operates business under the name Srivichai Vocational School and serves as a training facility for assistant nurses of Vichaivej International Hospital Group. The Company and subsidiary companies operate under the management of Ass. Prof. Saisunee Vanadurongwan, M.D. who is the Chief Executive Officer and Vice Chairman since establishment until today.

The main customer group of Vichaivej International Hospital Group comprises 2 major groups: 1) Non-capitation customer group, namely general individual customers, life insurance customer, contract party customers, cars victims customers under workmen compensation fund program and 2) Capitation customer group, namely customers under social security fund program, customers under Universal Health Care Coverage Project, and customers under foreign laborer health insurance project. Moreover the company had

expanded the customer group of health check up in the establishment, civil servants and their family under Diagnosis-Related Group (DRG) project; and 4) foreign customers residing in Thailand and came as tourist or to work.

Main revenue of Vichaivej International Hospital Group is divided into 2 major categories based on the nature of customers, that is: 1) Non-capitation; and 2) Capitation. For non-capitation revenue, this is made up of non-capitation OPD and non-capitation IPD revenues. Capitation revenue comprises earnings from the services provided to patients under social security program, patients under Universal Health Care Coverage Project, and patients under foreign laborer health insurance project. The ratio of non-capitation revenue to capitation revenue was 78.22 , 77.23, and 76.24 in 2018-2020 respectively.

In terms of operating performance, the Company and subsidiaries achieved total revenue from the hospital group in 2018-2020 equivalent to 2,246.69 million Baht, 2,480.84 million Baht, and 2,275.67 million Baht respectively.

The revenue type which has the highest proportion was the revenue from non-capitation IPD, followed by revenue from non-capitation OPD and social security program respectively. In addition, during the same period, the hospital which showed the highest revenue among the hospital group was Vichaivej International Hospital Omnoi, followed by Vichaivej International Hospital Nongkhaem, Vichaivej International Hospital Samutsakhon and Vichaivej Yeakfaichai respectively.

In 2018-2020, the hospital group achieved net profit at 177.12 million Baht, 200.42 million Baht, and 186.58 million Baht respectively, while its operating profit margins were 10.00%, 9.84%, and 10.31% in 2018, 2019, and 2020 respectively. As of 31 December 2020, the Company and subsidiary companies has total assets of 2,311.34 million Baht comprising land, building, and equipment totaling 1,488.03 million Baht. Meanwhile, the hospital group's total liabilities as of 31 December 2020 was 907.25 million Baht and equity at 1,404.09 million Baht comprising retained earnings of 774.07 million Baht.

However, the hospital business operated by the Company and its subsidiaries may still encounter impact from certain risk factor which the hospital group has recognized the significance of such risk factor and, therefore, set guideline for preventing and solving the problem in manner suitable to each risk type. The Company has placed great emphasis and close attention on management of different risks as per the details mentioned under risk factors.

Each hospital has different unique features in providing services as follows

Vichaivej International Omnoi Hospital provides 24-hour medical service with specialist physicians ready to provide OPD care until midnight, in addition to the different kinds of specialized treatment available, such as Laparoscopic Surgery Center, Orthopedic Center, Urology Center, Brain Center, Cardiology Clinic, Nephrology Center, Endocrinology Clinic, Gastrointestinal Clinic, Pediatric Clinic, Obstetrics and Gynecology clinic, Emergency and Trauma Center, Dental Center, Check - up Center and Anti-aging and Wellness Center. The hospital has operating rooms under positive pressure system, 100% sterile, dust-free, and moisture-free according to international standards. In addition, the MRI Center is also open for service. To increase the capacity of medical services and to diagnose with modern tools and technology. Can clearly see abnormal parts of the body There are very few side effects for patients. It is good to enable doctors to diagnose the disease precisely. And can be treated directly. And also a hospital that has been certified for the establishment of a stroke unit under the stroke service development program to reduce mortality in the elderly. In early 2020, there was the epidemic of the coronavirus or COVID-19, Vichaivej Hospital Omnoi opened ARI clinic to support screening and treatment of respiratory patients outside the building in March and provides COVID-19 detection services with the Drive-through system to facilitate for service recipient.

Vichaivej International Nongkhaem Hospital is a hospital that provides comprehensive care and counseling services. There are specialist doctors available to serve in various fields. By the Vichaivej Heart Center, which is a heart center that is ready and highly effective, providing services in all aspects of heart disease, from prevention, early diagnosis, treatment, to heart rehabilitation. Including 24-hour critical care for patients. By a team of cardiologists including Cardiologist, Heart and Chest Surgeon Along with a team of nurses and trained personnel specialized in the care of patients with heart disease. Led by Dr. Wattana Bunsom, a specialist in cardiovascular disease. In addition, Vichaivej International Nongkhaem Hospital also has an Orthopedic Center, Child Development Center, Pediatric Center. Laparoscopic Surgery Center, Obstetrics & Gynecology Center , iSKY Innovative Skin & Laser Surgery Center, which is famous and recognized in the country as a full-service aesthetic laser surgery center, Comprehensive Health Check Center, i-SHA Anti-Aging Center. The international patient service center that is ready to provide services and facilitate the treatment for all users to receive the best convenience and service.

Vichaivej International Samutsakhon Hospital also has similar comprehensive clinical service capacity as Vichaivej International Hospital Omnoi and has expertise in the provision of health services offsite such as in the establishment of the private and public sectors and enterprise. And opened occupational medicine center for health services, and up-to-date tools for checkup to search for the effect of health from work with laboratory center that full a complete range of tools for analyzing blood results and specimens. Moreover, Vichaivej International Hospital Samutsakhon has a clinic at Mae Sod District, Tak Province that serves Thai and Burmese customers, and has cooperated with partners in the Republic of the Union of Myanmar in examining the health of foreign laborers in Yangon, the Republic of the Union of Myanmar. In early 2020, in the epidemic of the corona-

virus or COVID-19, Vichaivej Hospital SamutSakhon has established a laboratory to detect COVID-19 with RT-PCR standard to provide diagnostic services to hospitals, including people who want to detect COVID-19 infection with the drive-through.

Vichaivej Yeakfaichai Hospital In the Midyear of 2016, The Company has invested in Vichaivej Yeakfaichai Hospital by focusing on to develop a treatment for specialty care units due to the location of Vichaivej Yeakfaichai Hospital is closed to Siriraj Hospital. That will cause the doctors of Siriraj Hospital to cure the patients at Sam Yaek Fai Chai. Moreover, there is a construction of the skytrain at Fai Chai junction that will help a convenient transportation to the hospital. Moreover, Vichaivej Yeakfaichai Hospital has a renowned iSKY Innovative Skin & Laser Surgery Center, SMILE by iSKY dental clinic, Orthopedic Center, Trauma and Emergency Center, Check - up Center and Fertility Center

Operation Marketing and Competition

Status of Industry and Competition

Fluctuations in economic conditions in Thailand are caused by different factors, both from changes in values, thoughts, behaviors, specifically the growth of technology, communication systems, including the impact of politics.

Cause of hospital business industry in Thailand has been fluctuating continuously and one of the reasons came from the government's decision to expand the health care coverage of The Social Security Scheme, Universal health Coverage, Migrant Health Coverage, and Civil Servant Medical Benefit Scheme. At the same time, the private health care providers have been adjusting their strategies in line with the competition, and in order to comply with changes in behavioral health services

For keep pace with such changes Vichaivej International Hospital Group has created a combination of its unique selling points in order to develop a clear and positive image for the hospital, and emphasizing on the specialization of the hospital in the treatment of certain ailments is an important part of the strategy. Forming part of this is the creation of a network of business partners in the form of hospital chain that can be effective in terms of hospital operation and management, cost and human resources; the expansion of customer data base and the standardization of services; the modernization of medical equipment and advance technologies.;the development of staff and public relation activities to promote the hospital, such as "The mobile medical unit providing community cares on various occasions", "The project Jit-ar-sa-mo-tor-zai-kuu-chiph" (The motorcycle taxi driver was a volunteer rescue), "Obesity in Children", and school tours to explain about health care etc.

Competitions

Hospital and health-related service business is considered to be one of the businesses that remains in the people's interest as today consumers turn more attention to taking care of their health and having proper hygiene. For that reason, this has led competition to be more intense, from both the competition amongst private hospitals and the competition against state hospitals that have adjusted their operations to gear

toward consumer market more. At the same time, consumers are more educated and start to compare quality and price. This implies that service prices are regulated by the factors of business competition situation, replacement products, buyer's power, and partner's negotiation power. In the past, Vichaivej International Hospital Group has created strong competition power in that it has managed its purchasing operation together as a group and with other hospital partners in order to establish negotiation power against business counterparties, such as medicine and medical supplies suppliers, in order to minimize product costs.

The hospital business competition that Vichaivej International Hospital Group has to face is not just from hospitals in southern part of Bangkok, Samutsakhon Province, and Nakhon Pathom Province only, however, private hospitals in nearby provinces, alternative medicine treatment as well as drug stores and clinics all try to compete in the business in order to take away the market share from Vichaivej International Hospital Group. The reason for such strong competition is due to the locations of the three hospitals which lie in industrial areas with not less than 5,400 factories and densely-populated community zones. However, Private hospital nearby in 10-20 kilometers as the following

Vichaivej International Omnoi Hospital	<ul style="list-style-type: none"> - kasemrad Hospital Bangkae - Bangkok Hospital Sanamchan - Thonburi 2 Hospital - Mahachai 2 Hospital
Vichaivej International Nongkheam Hospital	<ul style="list-style-type: none"> - Phyathai 3 Hospital - kasemrad Hospital Bangkae - Petkasem Hospital - Bangphai Hospital - Thonburi 2 Hospital
Vichaivej International Samutsakhon Hospital	<ul style="list-style-type: none"> - Mahachai 1 Hospital - Mahachai 3 Hospital - Ekachai Hospital - Vibharam Samutsakhon Hospital
Vichaivej Yeakfaichai Hospital	<ul style="list-style-type: none"> - Phyathai 3 Hospital - Thonburi Hospital - Bangphai Hospital - Yanhee Hospital - Chaophya Hospital

Marketing policy

Customer: The current customer of the hospital can be categorized into two: non-capitation and Capitation.

Non-capitation: Those who live or work near the hospital and outside the area, but do trust the doctor especially in orthopedic clinic, including office employees, factory workers and the government offices who have the contract with the hospital or customers of insurance companies.

Capitation: The patients who are treated in the hospital under a contract and pay annually through The Social Security Scheme which the hospital receive a compensation from Department of public Welfare

Characteristics of target customers.

Target customers are separated into 4 groups.

1. The group that lives within the radius of 10-20 km of each hospital in which the hospital has publicized among its target customer group so that they are informed and understand the hospital group's expertise in treating bone

and joint disease including the standard and readiness to treat other diseases. The hospitals have expanded and introduced new service that promotes strong health or prevents illnesses in addition to general treatment service available in order to attract non-patient customers.

2. The group comprising private companies, factories, educational institutes, banks, schools, government agencies, and business group in the industry that have not formed service contracts with the hospital group including management level staffs who are drawn to use more treatment service from the hospital group. The hospital group assigns its marketing and sales departments to be responsible for publicizing and contacting the various companies.

3. With life insurance companies, the hospital group certainly places great emphasis in doing marketing activities with this customer group as they are perceived to have high growth rate due to public attitude change that turns more attention to taking care of their health. This certainly is consistent with the government's promotion in wanting people to pay more attention to their health, plus the state's policy in allowing the use of premiums to deduct tax. Each hospital within the group would have marketing officers contact and form contracts with life insurers in order to become their contract hospitals and treat their patients. This would offer convenience to patients who come for treatment at the hospital.

4. International customer group that lives in Thailand and comes into the country to do business or work or just as tourists as the hospital recognizes the growth potential in this customer group. The hospital group has started to contact representatives and partners overseas in order for them to send foreign patients in Asia and Middle East to receive treatment at the hospital.

Quality service at competitive price

The entire Vichaivej International Hospital Group, focuses on service through the customer relation service center to achieve customer satisfaction which leads to customer loyalty and create an impressive experience for customers.

The medical

Vichaivej International Hospital Group focuses on the recruitment of doctors who have specialized knowledge, experience and expertise in each clinic. They are available

to patients 24 hours a day, together with nurses and staff who have the knowledge and expertise in each job to deliver maximum benefits to customers.

Advertising and public relations

Public relations is one way of creating public awareness and understanding about the capability and service quality of the hospital. We have established community and insurance agent commitment projects such as Provide knowledge about health in schools and workplaces annually, Afternoon Tea at VIO to make a good relationships between hospitals and insurance agents etc..

In addition, it will also promote the national level to the reputation and expertise of the hospital is known and familiar to the public at large, by means of focusing on digital marketing to increase communication efficiency such as

- Promoting the activities and events of the hospital through leading newspaper such as Thairath, Dailynews, Komchadluek, Matichon , etc.
- Website Vichaivej International Hospital Group including social media such as YouTube, and Line. By creating info graphic and VDO content about medical knowledge and promotion of the hospital to create awareness the potential of the hospital group while providing useful knowledge to society through the social media.

Sales and distribution channels

The hospital has several distribution channels. The direct sales focus on customers paying cash, Life insurance, Contract companies and through the government such as Social Security Scheme.

Social Responsible Activities

The Hospital aims to run the business with social responsibility and contribution to community as an organization of medical care.

- Organized diabetes screening activities for the general public and educational under the project name. “World Diabetes Day” to raise awareness of the health care and how to prevent diabetes.

Setting the treatment fee

For cash customer group, the hospital group operates with a pricing policy that takes into account the business operating costs and pricing that is market competitive, such as physician fee, medicine and medical supplies fees, medical equipment fee. For room charges, price would be set by referring to market prices of nearby hospitals, inclusive of items and facilities inside the room. Overriding everything, fees must be set based on pricing fairness principle and with consumers being the focal concern. Each hospital within the group would take into account the income level of target customer group before setting price standard to be consistent and suitable. The group has studied the possibility of adjusting its medical fees to be equivalent with other hospitals at the same level as today Vichaivej International Hospital Group has made leaping progress and is fully equipped with tools and equipment while its fees were still low compared to other hospitals.

Vichaivej International Hospital Group certificated “Moral Hospital” from the Deputy Prime Minister and the Minister of Commerce which to guarantee that Vichaivej International Hospital Omnoi, Vichaivej International Hospital Nong Khaem, Vichaivej International Hospital Samut Sakhon and Vichaivej Hospital Yaek Faichai is a hospital with morality and good governance hospital which certificated confirming the price policy of the hospital and the most fairness to consumers.

Products and services

1. Providing medical staff: Doctors, nurses and staff are a valuable asset in the business. Recruiting doctors also means building a good relationship with them via the development of the medical staff through training and scholarship programs. The Hospital provides on-the-job training for nursing students from Thai universities.

2. Providing medicines and medical supplies: The raw materials and cost of hospital pharmaceutical and Therapeutics Committee. This includes doctors, nurses, pharmacists, and the purchasing department. The Purchasing Department in order to compare quality, price, quantity, and reliability of each distributor before ordering. The hospital purchases medicines and medical supplies through local drug dealers. Currently, the hospital group has purchased some types of drugs and medical supplies together with partner hospitals by the purchasing department of the hospital group; the company has an efficient inventory management. Using a computer system in inventory management. In addition, the company stores each type of inventory in a suitable place in terms of temperature, sunlight and humidity in order to maintain the shelf life and quality of the drugs to ensure safety for patients. Including various color labels To make it convenient to consider the expiration date

3. Providing medical equipment: Medical device directors will consider the appropriateness of the tool to compare quality, price, service, delivery, after sales service and reliability of each distributor before ordering. To maintenance of particular property medical equipment according to the period to provide various tools, that the hospital group is ready for treatment by providing medical equipment that is modern and efficient. At present, the diagnostic radiology department has plans to add service potential by procurement and service of MRI 1.5 T (Tesla) and in the year 2020, the hospital group bought a computer X-ray machine which increases the potential for radiological diagnosis

Risk Factors

The Company manages the business risk through supervision of the Risk Management Committee that is responsible for formulating risk management policy and risk management guideline, monitoring, assessing and improving operation plan in order to reduce risk caused by both internal and external factors. The Committee needs to ensure efficient risk management and control risk at an acceptable level in accordance to the Company policy, which recognizes the importance of risk management to cope with any situations and changing trends, both inside and outside the organization that change rapidly.

Strategic Risk

Have risk management to expand the business and manage income to meet the target

Risk from increased hospital industry competition

The private hospital business is highly competitive and is likely to be even more competitive in the future. Apart from competition with hospitals at the same level, the Company must also compete with low level private hospitals, as well as public hospitals that have also expanded their medical services such as opening after-hours clinics. In that case, the Company has augmented and expanded the service area by investing additionally in Vichaivej Heart Center, mobile medical unit service, Occupational Medicine Center, Sports Medicine Center, and midnight clinics in order to respond to community and customers residential surroundings.

Risk from emerging diseases and re-emerging diseases

COVID-19 has affected services and protection equipment of physicians, nurses, medical officers and patients and caused lack of equipment, high prices, lower number of patients, out-of-service clinics such as Dental Center, Anti-aging Center, and Sport Medicine Center. Due to that, the Company has changed services by delivering medicine and medical supplies to patients via postal mail, and providing vaccination service outside buildings as to reduce overcrowding.

Financial Risk

To have confidence in the investment, cash flow and income - expenditure according to the target

The uncertainty of payment from the Social Security Office

Because some hospital in Vichaivej Hospital Group have receiving from Social Security Office. Therefore, revenue from the flat rate cost and apart from flat rate cost, such as inpatient medical fees. with the constant cost of disease (DRG) which fixed budget in the whole country. In the 4th quarter, all hospitals that accept Social Security patients have receiving lower DRG rates than should be. Therefore, the private hospital has joined a meeting with the Private Hospital Association to request the Social Security Office to consider allocating additional budgets.

Risk of reliance on distributors of medicine and medical supplies

One of the important factors in providing medical services is the sufficient procurement of quality medicine and medical supplies. Due to COVID-19, medicine management and distribution has been impacted especially medicine for chronic diseases such as diabetes and hypertension that patients regularly require. Since there is an issue of manufacturing and import of medicines due to COVID-19, the Company makes orders of medicines for 6 months in advance as to update distributors of medicine and medical supplies about the demand.

Operation Risk

Has set up operational procedures, such as analyzing the work processes of hospital groups to find problems / risks / gathering information. Analyze the occurrence and impact of risks and find ways to prevent significant risks.

according to standard of hospital operation such as Hospital Accreditation (HA) or International Organization for Standardization (ISO).

Medical Device Risk

There are set up a working group of medical devices of the hospital group together with take the medical device program to manage including the development of management capability group leader in each hospital for good effectively, reduce maintenance costs, repair, calibration of medical equipment and the monitoring of the performance every quarter.

IT Risk

Vichaivej International Hospital Group Establish an IT Infrastructure Plan.

Used Virtualization Technology to save management costs, Maintenance cost and increase the efficiency of data processing. Information security systems have added protection equipment, attacks from external networks (Firewall) and provide a standard data backup system so that the information system is safe and able to serve patients continuously.

In copyright infringement, Vichaivej International Hospital Group have a policy the use of legitimate programs only. In addition, the hospital continuously develop the HIS system, which is an important factor in business operations to keep up with the changes.

Legal risks

Risk of lawsuits

As the hospital business provides medical care services, which relates to the life and health of the patrons, the Company and network hospitals are faced with the risk of being sued by persons receiving medical services. This may affect the Company's reputation and patrons' confidence in the Company and network hospitals. Furthermore, the Act on Court Proceedings for Consumer Cases B.E. 2551 (2008) has laid out a system in considering cases that enable patients to fight for their rights. Patients who have been wronged will receive speedy remedy as the Act provides patients the right to go to court. Businesses are therefore more likely to be sued by patrons or have to pay damages for medical services provided. It was then required of physicians to take out insurance in order to protect in case of lawsuits or damage

claims in part of workers who through their role have to set a plan for analyzing the work process of their unit in order to look out for any risks and prepare proper work system to prevent such risks from arising.

Risk from future changes in standards or regulations governing the Company

The enforcement of laws or new regulations, as well as the deliberation of the draft Patient Protection Act, which protects persons who have been wronged or received damages from health care services with the goal to compensate the patients in a timely manner without having to prove wrongdoing, may affect health care providers including the Company. There is also consideration of setting up a patient protection fund to pay for damages to patients, whereby the health care institutions have to make contribution to such fund according to the criteria and rate specified by the Patient Protection Commission. Therefore, the Company may not be able to guarantee that future changes to laws and regulations or issuance of new regulations or new policies related to the Company's business will not affect the Company's operations and business opportunities.

Risk from personal data breach

There are cases of violation of personal data which cause damages to data owner which is resulted from technology advancement in collection, use or disclosure of personal data. Personal Data Protection Act was announced on 27 May 2019 which would be effective 1 year later which was on 27 May 2020. However, some clauses were postponed to be effective for another 1 year which would be on 27 May 2021. In this regard, in 2020, the Company arranged trainings to educate officers on 2 October 2020 as to prevent damages to the Company from collection, use and disclosure of personal data. Moreover, related persons were assigned to review rules regarding data of patients, officers, customers, partners, etc. At present, the Company is recruiting a suitable person for a position of Data Protection Officer (DPO).

Shareholder

In the year 2020, there are no directors of the company who resigned from office during the year

Structure of the Board of Directors

According to the Company's articles of association, the Board of Directors shall consist of at least five members. Not less than half of the number of such directors must reside in the Kingdom of Thailand.

Appointment of Directors

The appointment of directors are prescribed in the Company's article of association, which can be summarized as followed:

1. Each shareholder shall have a number of votes equal to the number of shares held multiplied by the number of the directors to be elected;
2. Each shareholder may exercise all the votes he or she has under (1) to elect one or several persons as director or directors. If several persons are to be elected as directors, the shareholder may allot his or her votes to any person in any number;
3. After the vote, the candidates shall be ranked in order descending from the highest number of votes received to the lowest, and shall be appointed as directors in that order, until all of the director positions are filled. Where there is an equality of votes cast for candidates in descending order causing the number of directors to be exceeded, the remaining appointments shall be made by drawing lots.
4. In case of a vacancy on the Board of Directors otherwise than by rotation, the Board of Directors shall elect any person who is qualified and not subject to prohibition under the laws as a replacement director at the next meeting of the Board of Directors, except in the case where the remaining term of office of such director is less than two months. The replacement director shall hold the office only for the remaining term of the director whom he replaces.

Removal and Termination of Directors

1. At every annual general meeting, one-third of the number of the directors shall vacate the office. If the number is not a multiple of three, then the number nearest to one-third must retire from the office.

2. Other than vacancy by rotation, the director shall vacate the office upon:

- (1) death;
- (2) resignation;
- (3) lack of qualifications or subject to prohibition under the law;
- (4) being removed by resolution of the shareholders meeting by voting of not less than three-fourths of the number of the shareholders present and entitled to vote and having shares in aggregate not less than one-half of the number of shares held by the shareholders present and entitled to vote;
- (5) being removed by the court order.

3. Any director wishing to resign from the director position shall submit the resignation letter to the Company. The resignation shall take effect upon the date on which the resignation letter reaches the Company.

The term of office of Directors.

At every annual general meeting, one-third of the number of the directors shall vacate the office. If the number is not a multiple of three, then the number nearest to one-third must retire from the office. After these Articles of Association become effective, the directors to retire from office pursuant to the first paragraph in the first and the second years shall be determined by ballots. In every subsequent year the directors who have served longest in office shall retire. Upon an occasion where several directors who have been in office for an equal length of time exceed the number of directors to retire from office for such time, the directors due to retire shall be determined by ballots. A retiring director based on the foregoing shall be eligible for re-election.

Duties and Responsibilities of the Chairman

The Company stipulates that the Chairman and Chief Executive Officer must not be the same person. The Chairman's duties and responsibilities include the following: The Chairman's duties and responsibilities include the following:

1. Call Board meetings, chair Board meetings and shareholders' meeting, as well as set meeting agenda in collaboration with the President.

2. Attend Board meetings and shareholders' meetings, ensure efficient meetings in compliance with Company's rules and regulations, while encouraging directors to express their independent views with adequate information provided.

3. Encourage the Board to work with their utmost ability, based on their duties and responsibilities, under corporate governance, and support the work of the President.

4. Supervise and follow up the work of the Board and other sub-committees to ensure that Company's objectives are reached.

5. Cast a decisive vote in Board meetings in case of equal votes of both sides.

Duties and Responsibilities of the Board of Directors

1. Supervision and management of the Company and subsidiary companies to be in accordance with the laws, objectives and regulations of the Company and its subsidiaries as well as the resolution of the shareholders, except in matters that require approval by the shareholders before proceeding, for instance matters that need approval from the shareholders' meeting, related party transactions and purchase or sale of major assets by the rules of the Stock Exchange of Thailand and the Office of the SEC or other government agencies as required and so on.

2. Review and approve key matters namely the policy, work plan and budget, investment in projects not included in the annual budget, management structure, authority in management of policy relating to compliance transactions or any actions that may affect the financial condition, liabilities, business status and reputation of the Company and its subsidiaries, interim dividend payment as well as other matters stipulated by the Stock Exchange or the law.

3. Overseeing the management operations to comply with the policy, plan and budget that have been approved.

4. To consider and approve the appointment of a person who is qualified and has no prohibited characteristics as defined in the Public Companies Limited Act B.E. 2535 (1992) (including the amendments) and securities and exchange laws as well as notifications, provisions, and/or relevant regulations, when Director position is vacant by other causes apart from by rotation, and the appointment of the Chief Executive Officer of the Company and subsidiaries.

5. To consider appointment and assignment of the role of Committees as follows:

5.1 Establish Committees as deemed appropriate and necessary to perform the responsibilities of the Board of Directors including Audit Committee, Executive Committee, Nomination and Remuneration Committee and Risk Management Committee, etc.

5.2 Consider and approve the role of the Committees, as well as changes in the composition of Committees that have been appointed.

6. Oversee the interests of both major and minor shareholders fairly and treat shareholders and stakeholders justly.

7. Provide a balance of management and/or major shareholder in the appropriate level. It is important to maintain a good ratio or number of independent directors on the Board of Directors of the Company.

8. Ensure that the Board of Directors receives adequate information from management to perform their authorized role, duty and responsibility fully.

9. Ensuring a transparent operation and management of the Company, including related party transactions between the Company and subsidiaries and related parties in order to prevent conflicts of interest by providing accurate and adequate information disclosure, as well as reporting to the Board of Directors regularly.

10. Consider determining and changing the names of Authorized Directors who have the authority to bind the Company and its subsidiaries.

11.To provide the accounting system, financial reporting and credible auditing, as well as a system of internal control and internal audit that is effective and efficient, and to approve changes in policies and practices that have material effect on accounting and internal control of the Company and subsidiaries.

12.Authority to do as following can only be made upon receiving approval from the shareholders' meeting first. For matter where there may be Director or person who may have disagreement, stake or conflicts of interest in the Company or subsidiaries, it is stipulated that that Director who has a stake in the matter shall have not rights to cast a vote for that matter.

12.1 The matter which the law requires the resolution of the shareholders' meeting.

12.2 To perform transaction where Director will have a stake and required by the law or the Stock Exchange of Thailand to receive the approval from the shareholders' meeting.

13.The Board of Directors may authorize a Director or many Directors or other person to perform either one act on behalf of the Board of Directors. This authorization does not include the authorization or sub-authorization that allows the Director or authorized person to approve transaction where the Director or authorized person may have conflicts of interest with the Company or subsidiaries. It is a requirement to seek approval from the shareholders' meeting in all related transactions and the acquisition or selling of important assets of the Company and its subsidiaries, in line with the requirements of the Stock Exchange of Thailand and the Office of the Securities and Exchange Commission, and/or other relevant government agencies.

Simultaneously encourage all directors to have better knowledge and understanding of Company's business to enhance their role as efficient directors. Moreover, the Company has policy to improve knowledge to directors regularly.

Implementation of the Corporate Governance Code 2017

In the 2020, The Board of Directors has considered and reviewed corporate governance principles for listed company 2017 (New CG Code) according to 8 principles set by SEC (Securities and Exchange Commission) for action guideline to the Company's Board of Directors , as follows:

1. Establishing clear leadership role and responsibilities of the Board, contributing to the sustainable value creation for the business;
2. Defining objectives and goals that promote sustainable value creation;
3. Enhancing the Board effectiveness;
4. Ensuring effective CEO and people management;
5. Nurturing innovation and responsible business;
6. Strengthening effective risk management and internal control system;
7. Ensuring disclosure and maintaining financial integrity;
8. Ensuring engagement and communication with shareholders.

By applying the principles of good corporate governance for listed companies (Corporate Code: CG Code) set by the Securities and Exchange Commission. Including guidelines from the good corporate governance policy of the company for further adjustment. By applying the principles of good corporate governance for listed companies

in 2017 to apply as appropriate to the business context of the company as much as possible. And prescribing additional guidelines that the company should proceed to improve to suit the situation of the company.

The updated essentials include the additional roles, duties and responsibilities of the committee, corruption risks, information disclosure and transparency, including the consideration of the role of stakeholders more clearly. In reviewing the principles of good corporate governance for listed companies, the Company found that there are still some guidelines that the Board of Directors considered and should not allow to be adapted because they still deem inappropriate for the context of the company. And saw that it was a complicated matter. The reasoning recorded as part of the board resolution In addition, the company has established measures and guidelines for supervision by other methods in order to achieve good corporate governance in that matter.

Compliance with the Company's Corporate Governance

In 2020, the Company received assessments related to good corporate governance activities as follows:

➤ The Company received a "Excellent" accomplishment in the Corporate Governance Report of Thai Listed Companies 2020 which was rated by the Thai Institute of Directors (IOD) in cooperation with the Securities and Exchange Commission (SEC) and the Stock Exchange of Thailand (SET) and the company have a market value of more than 3,000 – 9,999 million baht from the survey of corporate governance for the year 2020.

➤ The Company was evaluated by the Office of the Securities and Exchange Commission, in cooperation with Thai Investors Association and Thai Listed Companies Association, on the quality of the Annual General Meeting for the year 2020. The Annual General Meeting of shareholders for the year 2020 was rated "Excellent" with a score of 99 points.

In 2020, the Board of Directors reviewed and revised the Corporate Governance Policy according to suggestions of Thai Institute of Directors in order to enhance the corporate governance. Key details are as follows:

Group	Review and Revision
Responsibilities of Board of Directors	Arrange meetings among Non-executive Directors without management presence as to improve the good corporate governance according to the suggestions of Thai Institute of Directors. The BOD agreed to arrange such meeting at least once a year from 2021 onwards without attendance fee.

For the clauses of the good corporate governance that have not been fully complied, the Company has adapted as much as possible according to appropriateness.

Non-compliance Clause	Rationale
The BOD should clearly specify the term of Independent Directors in the Corporate Governance Policy which should not exceed 9 years without exclusions.	The Company specified the term of Independent Directors at 3 years and they cannot be in the position for over 3 consecutive terms (in total not exceeding 9 years). In case Independent Directors are in position for over 9 years, the BOD has to present the reasons in order to request approval from the Shareholders Meeting.
The Chairman of the BOD should be Independent Director.	The Chairman of the BOD is not Independent Director. However, the Chairman is not a member of the Company's subcommittees, and is not Chief Executive Officer. Roles and duties are clearly specified.
Nomination and Remuneration Committee should mostly comprise of Independent Directors (more than 50%).	Nomination and Remuneration Committee comprises the Chairman of Nomination and Remuneration Committee who is Independent Director, and 2 Independent Directors who are not in charge of management or 50%. The Committee can perform transparently and independently.

Board-Committees

The Board of Directors set up 6 sub-committees to help monitor and supervise the operations more closely and regularly report to the Board of Directors. They are The Audit Committee, Nomination and Remuneration Committee, Risk Management Committee, Working Group for Financial and Investment Planning and Corporate Governance Committee and Executive Committee to scrutinize and supervise the operation of the Company over specific issues, in order to perform their duties efficiently and effectively as well as to ensure that the Company complies with rules and regulations of the SEC and SET.

The Audit Committee

The Board appointed the Audit Committee, which consists of fully qualified members against SEC and SET requirements. A minimum of three members must be independent directors, at least one of whom must be adequately qualified and experienced in reviewing the credibility of financial statements. The committee reviews the Company's performance outcomes, financial reports, internal control system, and consider related party transactions, the appropriateness of accounting auditors, including the selection and appointment process.

As of December 31, 2020, the Audit Committee consists of three independent directors as follows:

- | | | |
|------------|----------------------------------|---------------------------------|
| 1. Visut | Montriwat | Chairman of the Audit Committee |
| 2. Surin | Premamornkit | The Audit Committee |
| 3. Porntep | Siriwanarangsun, MD., MPH., Ph.D | The Audit Committee |

So Mr. Surin Premamornkit, Mr. Visut Montriwat and Porntep Siriwanarangsun, MD., MPH., Ph.D with qualified knowledge and experience in accounting and finance to review the reliability of the financial statements and Public health management system Knowledge. So, Mrs. Naree Phetdum, serves as Secretary to the Audit Committee.

Duties and Responsibilities of the Audit Committee

1. Ensure that the Company's and subsidiaries' financial reports are correct and adequately disclosed, by coordinating with the external auditor and executives who are responsible for preparing quarterly and annual financial reports.

2. Ensure that the Company's and subsidiaries' system of internal control and internal audit are appropriate and effective. Also, to consider the independence of internal audit unit and approve the appointment, transfer, dismissal of internal audit supervisor, or any other agency responsible for internal audit.

Return on assets and return on equity ratio in 2020 of 11.01% decreased from 2019 of 12.69% due to decreased hospital operating results which caused the company, the situation epidemic of Corona Virrus disease 2019.

Average collection period increased from 50.08 days to 57.60 days, average sales period and the average payment period increased from 9.58 days and 66.05 days in 2019 to 10.59 days and 68.77 days in 2020, respectively.

Interest payment capability decreased from 13.03 times in 2019 to 11.84 times in 2020 because the company has profit before financial cost and taxes in 2019, increase interest paid and Debt to equity ratio decrease 0.70 times in 2019 to 0.65 times in 2020, in which the Company and its subsidiaries manage the control Strong financial structure By keeping the financial ratio and liquidity at an appropriate level.

Report of the Board of Directors on the Financial Statements year 2020

The Board of Directors has realized the importance of its role and responsibility on implanting the corporate governance principle into the company's management. This also means to ensure that the Company's financial statement and financial information in the annual report is accurate, complete and in line with the accounting standard. As well as the reins adequate disclosure of information in the notes to the financial statements that can reflect the financial position, performance, and cash flows accurately, transparently and beneficially to the shareholders and general investors

In this regard, the Board of Directors has focused on improving the management structure and internal control systems to boost the creditability of the Company's financial statement. Such improvement also helps guarantee that the Company is equipped with an effective system to monitor its assets and to prevent serious misconducts and other operational irregularities of the Company.

The Board of Directors has appointed the Audit Committee comprising of a number of independent directors, who are fully qualified under the requirements by the Stock Exchange of Thailand. The Audit Committee is mainly responsible for maintaining the quality of the financial report and internal control systems. It is also responsible for any disclosure of connected transactions. The Committee's reviews on such matters will appear in this Annual Report and form 56-1 under the Audit Committee's Report.

The Board of Directors has the opinion that the Company's overall internal control system is adequate and appropriate. The Board is reasonably confident that the separate financial statements and consolidated financial statements of the Company and its subsidiaries for the year ended 31 December 2020 are reliable and complying with generally accepted accounting standards and the practice is in compliance with related law and regulations.

(Assoc.Prof.Vichai Vanadurongwan, M.D.,Ph.D.,FIMS)
Chairman of the Board

Chief Executive Officer

Independent Auditor's Report

To the Shareholders of Srivichaivejvivat Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of Srivichaivejvivat Public Company Limited and its subsidiaries, which comprise the consolidated statement of financial position as at 31 December 2020, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of Srivichaivejvivat Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Srivichaivejvivat Public Company Limited and its subsidiaries and of Srivichaivejvivat Public Company Limited as at 31 December 2020, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company and its subsidiaries in accordance with the Code of Ethics for Professional Accountants as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter

I draw attention to Note 28.4 to the consolidated financial statements regarding the cancellation of public health services of National Health Security Office. My opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

I have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report, including in relation to these matters. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matters below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Key audit matters and how audit procedures respond for each matter are described below.

Estimation of accrued medical treatment income

The Company and its subsidiaries have revenues from the provision of medical services to patients under the government welfare schemes of the Social Security Office and the National Health Security Office. The amounts of such revenues are determined based on government policy, the number of insured persons registered with the Company and its subsidiaries, and statistical information on the services provided by the

Company and its subsidiaries. As discussed in Note 9 to the financial statements, as at 31 December 2020, the Company and its subsidiaries had accrued medical treatment income from the two government agencies amounting to Baht 117 million. An estimation of accrued medical treatment income requires management to exercise significant judgement. There is thus a risk of the amount of such accrued income.

I have examined the accrued medical treatment income by

- Assessing and testing the Company and its subsidiaries' internal controls with respect to the estimation of accrued medical treatment income by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls.
- Assessing the appropriateness of the criteria, methodology and conditions applied by the Company and its subsidiaries in estimating accrued medical treatment income in accordance with government policy.
- Performing the reasonableness of past estimates of accrued medical income by comparing those estimates with the actual amounts received.
- Examining cash receipt transactions relating to accrued medical treatment income subsequent to the period-end date.

Goodwill

I have focused my audit on the consideration of the impairment of goodwill with indefinite useful lives, as discussed in Notes 14 to the financial statements, because the assessment of impairment of goodwill is a significant accounting estimate requiring management to exercise a high degree of judgment in identifying the cash generating units, estimating the cash inflows that are expected to be generated from that group of assets in the future, and setting an appropriate discount rate and long-term growth rate. There are thus risks with respect to the amount of goodwill.

I assessed the identification of cash generating units and the financial models selected by management by gaining an understanding of management's decision-making process and assessing whether the decisions made were consistent with how assets are utilised. In addition, I tested the significant assumptions applied by management in preparing estimates of the cash flows expected to be realised from the assets, by comparing those assumptions with information from both internal and external sources and comparing past cash flow projections to actual operating results in order to evaluate the exercise of management judgment in estimating the cash flow projections. I also evaluated the discount rate applied by management through analysis of the moving average finance costs of the Company and of the industry, tested the calculation of the realisable values of the assets using the selected financial model and considered the impact of changes in key assumptions on those realisable values, especially changes in the discount rate and long-term revenue growth rates.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Company and its subsidiaries, but does not include the financial statements and my auditor's report thereon. The annual report of the Company and its subsidiaries is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Company and its subsidiaries, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company and its subsidiaries' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company and its subsidiaries' financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company and its subsidiaries' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company and its subsidiaries' ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company and its subsidiaries to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and its subsidiaries to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the Company and its subsidiaries audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

Srivichaivejvivat Public Company Limited and its subsidiaries

Notes to consolidated financial statements

For the year ended 31 December 2020

1. General information

1.1 Corporate information

Srivichaivejvivat Public Company Limited ("the Company") is a public company incorporated and domiciled in Thailand. The Company is principally engaged in hospital business. The registered office of the Company is at 74/5 Moo 4, Phetkasem Road, Omnoi, Krathumbaen, Samutsakorn.

1.2 Coronavirus disease 2019 Pandemic

The Coronavirus disease 2019 pandemic is adversely impacting most businesses and industries. This situation may bring uncertainties and have an impact on the environment in which the Company and its subsidiaries operate. The Company and its subsidiaries' management have continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.

2. Basis of preparation

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

a) The consolidated financial statements include the financial statements of Srivichaivejvivat Public Company Limited ("the Company") and the following subsidiary companies ("the subsidiaries"):

Company's name	Nature of business	Country of incorporation	Percentage of Shareholding	
			<u>2020</u>	<u>2019</u>
			Percent	Percent
Saivichai Development Company Limited	Operating of hospitals	Thailand	99.43	99.43
Srisakornvejvivat Company Limited	Operating of hospitals	Thailand	99.56	99.56
Srivichai Vocational College Company Limited	Operating of vocational school	Thailand	99.98	99.98
The Bangkok Orthopedic Hospital Company Limited	Operating of hospitals	Thailand	100.00	100.00

b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.

c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.

d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.

e) Material balances and transactions between the Company and its subsidiaries have been eliminated from the consolidated financial statements.

f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.

2.3 The separate financial statements present investments in subsidiaries under the cost method.

3. New financial reporting standards

(a) Financial reporting standards that became effective in the current year

During the year, the Company and its subsidiaries has adopted the revised (revised 2018) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2019. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Company's and its subsidiaries' financial statements. However, the new standard involves changes to key principles, which are summarised below:

Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7 Financial Instruments: Disclosures

TFRS 9 Financial Instruments

Accounting standard:

TAS 32 Financial Instruments: Presentation

Financial Reporting Standard Interpretations:

TFRIC 16 Hedges of a Net Investment in a Foreign Operation

TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. They also include stipulations regarding the presentation and disclosure of financial instruments.

The impact of the adoption of these standards on the Company and its subsidiaries' financial statements is as follows.

- Classification and measurement of investments in equity instruments of non-listed company that the Company and its subsidiaries are to measure investment in equity instruments of non-listed company at fair value and classify the investment as financial assets at fair value, through other comprehensive income.

- Recognition of credit losses that the Company and its subsidiaries are to recognise an allowance for expected credit losses on its financial assets, and it is no longer necessary for a credit-impaired event to have occurred. The Company and its subsidiaries apply the simplified approach to consider impairment of trade receivables. The Company and its subsidiaries recognised the cumulative effect of the adoption of this financial reporting standards as an adjustment to retained earnings and other components of shareholders' equity as at 1 January 2020, and the comparative information was not restated.

The cumulative effect of the change is described in Note 4.

TFRS 16 Leases

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases.

The Company and its subsidiaries recognised the cumulative effect of the adoption of this financial reporting standard as an adjustment to retained earnings as at 1 January 2020, and the comparative information was not restated.

The cumulative effect of the change is described in Note 4.

Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic

The Federation of Accounting Professions announced Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic. Its objectives are to alleviate some of the impacts of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation.

On 22 April 2020, the Accounting Treatment Guidance was announced in the Royal Gazette and it is effective for the financial statements prepared for reporting periods ending between 1 January 2020 and 31 December 2020. During the period from the first quarter to the third quarter of 2020, the Company and its subsidiaries elected to apply the following temporary relief measures on accounting alternatives:

- Not to take into account forward-looking information when determining expected credit losses, in cases where the Company and its subsidiaries use a simplified approach to determine expected credit losses.
- To measure the fair value of investments in unquoted equity instruments using the fair value as at 1 January 2020.
- Not to use information relating to the COVID-19 situation that may affect the cash flow forecasts used in testing goodwill for impairment.

In the fourth quarter of 2020, the Company and its subsidiaries have assessed the financial impacts of the uncertainties of the COVID-19 Pandemic on the valuation of assets. As a result, in preparing the financial statements for the year ended 31 December 2020, the Company and its subsidiaries have decided to discontinue application of all temporary relief measures on accounting alternatives with no significant impact on the Company and its subsidiaries' financial statements.

b) Financial reporting standards that became effective for fiscal years beginning on or after 1 January 2021 The Federation of Accounting Professions issued a number of revised financial reporting standards and interpretations, which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes

directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Company and its subsidiaries are currently evaluating the impact of these standards to the financial statements in the year when they are adopted.

4. Cumulative effects of changes in accounting policies due to the adoption of new financial reporting standards

As described in Note 3 to the financial statements, during the current year, the Company and its subsidiaries have adopted financial reporting standards related to financial instruments and TFRS 16. The cumulative effect of initially applying these standards is recognised as an adjustment to retained earnings or other components of equity as at 1 January 2020. Therefore, the comparative information was not restated.

The impacts of changes in accounting policies on the statements of financial position at the beginning of 2020 due to the adoption of these standards are presented as follows:

(Unit: Thousand Baht)

4.1 Financial instruments

Details of the impact on other components of equity as at 1 January 2020 due to the adoption of financial reporting standards related to financial instruments are presented as follows:

(Unit: Thousand Baht)	
	Consolidated/Separate financial statements
Fair value measurement of investment in equity instrument of non-listed company - net of income tax	324
Impacts on other components of equity due to the adoption of financial reporting standards related to financial instruments	324

The classifications, measurement basis and carrying values of financial assets in accordance with TFRS 9 as at 1 January 2020, and with the carrying amounts under the former basis, are as follows:

Consolidated financial statements					(Unit: Thousand Baht)
Carrying amounts under the former basis		Classification and measurement in accordance with TFRS 9			
		Fair value through profit or loss	Fair value through other comprehensive income	Amortised cost	Total
Financial assets as at 1 January 2020					
Cash and cash equivalents	191,158	-	-	191,158	191,158
Trade and other receivables	363,361	-	-	363,361	363,361
Restricted bank deposits	489	-	-	489	489
Other long-term investment	40,500	-	-	-	-
Other non-current financial asset	-	-	40,905	-	40,905
Total financial assets	595,508	-	40,905	555,008	595,913
Financial assets as at 1 January 2020					
Cash and cash equivalents	43,975	-	-	43,975	43,975
Trade and other receivables	186,576	-	-	186,576	186,576
Other long-term investment	40,500	-	-	-	-
Other non-current financial asset	-	-	40,905	-	40,905
Total financial assets	271,051	-	40,905	230,551	271,456

As at 1 January 2020, the Company and its subsidiaries have not designated any financial liabilities at fair value through profit or loss.

4.2 Leases

Upon initial application of TFRS 16 the Company and its subsidiaries recognised lease liabilities previously classified as operating leases at the present value of the remaining lease payments, discounted using the Company and its subsidiaries' incremental borrowing rate at 1 January 2020. For leases previously classified as finance leases, the Company and its subsidiaries recognised the carrying amount of the right-of-use assets and lease liabilities based on the carrying amounts of the lease assets and lease liabilities immediately before the date of initial application of TFRS 16.

	(Unit: Thousand Baht)	
	Consolidated financial statements	Separate financial statements
Operating lease commitments as at		
31 December 2019	99,106	680
Less: Short-term leases and leases of low-value assets	(947)	(680)
Add: Option to extend lease term	8,273	-
Add: Leases increase during the period	759	-
Less: Deferred interest expenses	(32,172)	-
Increase in lease liabilities due to TFRS 16 adoption	75,019	-
Liabilities under finance lease agreements as at		
31 December 2019	16,495	3,193
Lease liabilities as at 1 January 2020	91,514	3,193
Weighted average incremental borrowing rate (<i>percent per annum</i>)	2.64 - 6.11	3.79 - 5.40
The above lease liabilities comprise of:		
Current lease liabilities	13,982	1,283
Non-current lease liabilities	77,532	1,910
	91,514	3,193

The adjustments of right-of-use assets due to TFRS 16 adoption as at 1 January 2020 are summarised below:

	(Unit: Thousand Baht)	
	Consolidated financial statements	Separate financial statements
Land	10,721	-
Buildings and buildings improvement	35,292	-
Tools and medical instruments	5,925	-
Motor vehicles	12,007	4,089
Total right-of-use assets	63,945	4,089

5. Significant accounting policies

5.1 Revenue recognition and expense recognition

Revenue for hospital operations

Revenues from hospital operations, mainly consisting of medical fees, hospital room sales, and medicine sales, are recognised as revenue and the point in time when services have been rendered or medicines have been delivered. Revenues are measured at the amount of the consideration received or receivable of services rendered, and medicine delivered after deducting discounts. Except for operating revenues from the Social Security Office and National Health Security Office which are recognised as income according to annual lump sum amount and adjust relative weights per the number of registrants of the Company and its subsidiaries.

Rendering of services

Service revenue is recognised when services have been rendered taking into account the stage of completion.

Revenue from tuition fees and educational media

Revenues from tuition fees and educational media are recognised over the teaching period.

Rental income

Rental income is recognised over the rental period and at the rate determined in agreement.

Interest income

Interest income is calculated using the effective interest method and recognised on an accrual basis. The effective interest rate is applied to the gross carrying amount of a financial asset, unless the financial assets subsequently become credit-impaired when it is applied to the net carrying amount of the financial asset (net of the expected credit loss allowance).

Finance cost

Interest expense from financial liabilities at amortised cost is calculated using the effective interest method and recognised on an accrual basis.

Dividends

Dividends are recognised when the right to receive the dividends is established.

5.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

5.3 Medicine and supplies

Medicine and supplies are valued at the lower of cost (average method) and net realisable value.

5.4 Investments in subsidiaries

Investments in subsidiaries are accounted for in the separate financial statements using the cost method.

5.5 Property, plant and equipment/Depreciation

Land is stated at cost. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Depreciation of plant and equipment is calculated by reference to their cost on the straight-line basis over the following estimated useful lives:

Buildings	20, 40 and 50	years
Buildings improvement	5, 20	years
Tools and medical instrument	2 - 10	years
Office furniture, fixtures and equipment	3, 5	years
Motor vehicle	5, 10	years

Depreciation is included in determining income.

No depreciation is provided on land and assets under installation and under construction.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in the profit or loss when the asset is derecognised.

5.6 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective assets. All other borrowing costs are expensed in the period they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

5.7 Goodwill

Goodwill is initially recorded at cost, which equals to the excess of cost of business combination over the fair value of the net assets acquired. If the fair value of the net assets acquired exceeds the cost of business combination, the excess is immediately recognised as gain in profit or loss.

Goodwill is carried at cost less any accumulated impairment losses (if any). Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the subsidiary's cash generating units that are expected to benefit from the synergies of the combination. The subsidiary estimates the recoverable amount of each cash-generating unit to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in profit or loss. Impairment losses relating to goodwill cannot be reversed in future periods.

5.8 Leases

At inception of contract, the Company and its subsidiaries assess whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

Accounting policies adopted since 1 January 2020

The Company and its subsidiaries applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Company and its subsidiaries recognise right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

Right-of-use assets

Right-of-use assets are measured at cost, less accumulated depreciation, any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, and lease payments made at or before the commencement date of the lease less any lease incentives received.

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the shorter of their estimated useful lives and the lease term.

Land	16	years
Buildings and buildings improvement	2 - 12	years
Tools and medical instruments	2 - 6	years
Motor vehicles	2 - 7	years

Lease liabilities

Lease liabilities are measured at the present value of the lease payments to be made over the lease term.

The Company and its subsidiaries discounted the present value of the lease payments by the interest rate implicit in the lease or the Company and its subsidiaries' incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

A lease that has a lease term less than or equal to 12 months from commencement date or a lease of low-value assets is recognised as expenses on a straight-line basis over the lease term.

Accounting policies adopted before 1 January 2020

Leases of property, plant or equipment which transfer substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The outstanding rental obligations, net of finance charges, are included in long-term payables, while the interest element is charged to profit or loss over the lease period. The assets acquired under finance leases is depreciated over the shorter of the useful life of the asset and the lease period.

Leases of property, plant or equipment which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term.

5.9 Related party transactions

Related parties comprise enterprises and individuals that control, or are controlled by, the Company or its subsidiaries, whether directly or indirectly, or which are under common control with the Company or its subsidiaries.

They also include individuals which directly or indirectly own a voting interest in the Company or its subsidiaries that gives them significant influence over the Company or its subsidiaries, key management personnel, directors and officers with authority in the planning and direction of the Company's or its subsidiaries' operations.

5.10 Impairment of non-financial assets

At the end of each reporting period, the Company and its subsidiaries perform impairment reviews in respect of the property, plant and equipment, right-of-use asset, and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. The Company and its subsidiaries also carry out annual impairment reviews in respect of goodwill. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available, reflects the amount that the Company and its subsidiaries could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

An impairment loss is recognised in profit or loss.

In the assessment of asset impairment (except for goodwill), if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Company and its subsidiaries estimate the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at a revalued amount, in which case the reversal, which exceeds the carrying amount that would have been determined, is treated as a revaluation increase.

5.11 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined contribution plans

The Company, the subsidiaries and their employees have jointly established separate provident funds. The funds are monthly contributed by employees, the Company and the subsidiaries. The funds' assets are held in separate trust funds and the Company and the subsidiaries' contributions are recognised as expenses when incurred.

Defined benefit plans

The Company and its subsidiaries have obligations in respect of the severance payments they must make to employees upon retirement under labor law. The Company and its subsidiaries treat these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefit plans are recognised immediately in other comprehensive income.

Past service costs are recognized in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Company and its subsidiaries recognise restructuring-related costs.

5.12 Provisions

Provisions are recognised when the Company and its subsidiaries have a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

5.13 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Company and its subsidiaries recognise deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Company and its subsidiaries review and reduce the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company and its subsidiaries record deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

5.14 Financial instruments

Accounting policies adopted since 1 January 2020

The Company and its subsidiaries initially measure financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing component, are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI"), or fair value through profit or loss ("FVTPL"). The classification of financial assets at initial recognition is driven by the Company and its subsidiaries' business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortised cost

The Company and its subsidiaries measure financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets designated at FVOCI (equity instruments)

Upon initial recognition, the Company and its subsidiaries can elect to irrevocably classify its equity investments which are not held for trading as equity instruments designated at FVOCI. The classification is determined on an instrument-by-instrument basis.

Gains and losses recognised in other comprehensive income on these financial assets are never recycled to profit or loss.

Dividends are recognised as other income in profit or loss, except when the dividends clearly represent a recovery of part of the cost of the financial asset, in which case, the gains are recognised in other comprehensive income.

Equity instruments designated at FVOCI are not subject to impairment assessment.

Classification and measurement of financial liabilities

At initial recognition the Company and its subsidiaries' financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Company and its subsidiaries take into account any fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

Derecognition of financial instruments

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Company and its subsidiaries have transferred substantially all the risks and rewards of the asset, or the Company and its subsidiaries have neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

Impairment of financial assets

For trade receivables, the Company and its subsidiaries apply a simplified approach in calculating ECLs. Therefore, the Company and its subsidiaries do not track changes in credit risk, but instead recognise a loss allowance based on lifetime ECLs at each reporting date. It is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Accounting policies adopted before 1 January 2020

Trade accounts receivable

Trade accounts receivable are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experience and analysis of debt aging.

Investments

Investments in non-marketable equity securities, which the Company and its subsidiaries classify as other investments, are stated at cost net of allowance for impairment loss (if any).

5.15 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company and its subsidiaries apply a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company and its subsidiaries measure fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 - Use of quoted market prices in an active market for such assets or liabilities
- Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Company and its subsidiaries determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

6. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Accrued medical treatment income

Accrued medical treatment income represents medical income that has not been collected from the Social Security Office and National Health Security Office. The Company and its subsidiaries are not able to determine the certain amount to be collected. In this regard, the management is required to make an estimation of such accrued income in accordance with bases, methods and terms specified by such authority, and consider the amount of the latest actual collection together with the current circumstances.

Goodwill

The initial recognition and measurement of goodwill, and subsequent impairment testing, require management to make estimates of cash flows to be generated by the asset or the cash generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

7. Related party transactions

During the years, the Company and its subsidiaries had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Company and its subsidiaries and those related parties.

	financial statements		Separate financial statements		Pricing policy
	2020	2019	2020	2019	
<u>Transactions with subsidiaries</u>					
(eliminated from the consolidated financial statements)					
Medical service income	-	-	6	7	Normal price less certain discount
Dividend income	-	-	64	78	Resolution of the Annual General Meeting of the shareholders of subsidiaries
Medical service expenses	-	-	50	47	Normal price less certain discount
Acquisition of vehicles	-	-	10	-	Market Price
<u>Transactions with related individuals</u>					
Medical service income	-	1	-	-	Normal price less certain discount

As at 31 December 2020 and 2019, the balances of the accounts between the Company, its subsidiaries and those related parties are as follows:

	Consolidated		(Unit: Thousand Baht)	
	financial statements		Separate	
	<u>2020</u>	<u>2019</u>	<u>2020</u>	<u>2019</u>
<u>Trade and other receivables - related parties</u>

10. Medicine and supplies

(Unit: Thousand Baht)

Consolidated financial statements						
	Cost		Reduce cost to net realisable value		Medicine and supplies - net	
	2020	2019	2020	2019	2020	2019
Medicine	25,574	22,779	(306)	(313)	25,268	22,466
Medical supplies	21,787	23,034	(53)	(93)	21,734	22,941
Other supplies	4,286	3,609	(19)	(9)	4,267	3,600
Total	51,647	49,422	(378)	(415)	51,269	49,007

(Unit: Thousand Baht)

Separate financial statements						
	Cost		Reduce cost to net realisable value		Medicine and supplies - net	
	2020	2019	2020	2019	2020	2019
Medicine	10,462	9,129	(140)	(162)	10,322	8,967
Medical supplies	6,049	4,929	(17)	(17)	6,032	4,912
Other supplies	1,222	632	-	-	1,222	632
Total	17,733	14,690	(157)	(179)	17,576	14,511

During the current year, the Company and its subsidiaries reduced cost of medicine and supplies by Baht 0.9 million (2019: Baht 1 million) (The Company only: Baht 0.7 million and 2019: Baht 0.7 million), to reflect the net realisable value. This was included in cost of hospital operations. In addition, the Company and its subsidiaries reversed the write-down of cost of medicine and supplies by Baht 1 million (2019: Baht 0.9 million) (The Company only: Baht 0.7 million and 2019: Baht 0.7 million), and reduced the amount of medicine and supplies recognised as expenses during the year.

11. Restricted bank deposits

These represent bank deposits pledged with the bank to secure bank guarantees issued by that bank on behalf of the subsidiary.

12. Investments in subsidiaries

Details of investments in subsidiaries as presented in separate financial statements are as follows:

(Unit: Thousand Baht)								
Company's name	Paid-up capital		Shareholding percentage		Cost		Dividend received during the year	
	2020	2019	2020	2019	2020	2019	2020	2019
			(%)	(%)				
Saivichai Development Company Limited	150,000	150,000	99.43	99.43	159,526	159,526	45,937	54,588
Srisakornvejvivat Company Limited	99,200	99,200	99.56	99.56	108,506	108,506	13,037	21,728
Srivichai Vocational College Company Limited	100	100	99.98	99.98	100	100	284	377
The Bangkok Orthopedic Hospital Company Limited	9,000	9,000	100.00	100.00	142,868	142,868	4,895	813
Total					411,000	411,000	64,153	77,506

The company had agreement to pay the unpaid amount of business acquisition for the Bangkok Orthopedic Hospital Company Limited of Baht 58.5 million in 9 annual installments of Baht 6.5 million each, starting from 2016.

2020 (Baht 41 million included in cost of hospital operations, and the balance in selling and administrative expenses)							48,387

As at 31 December 2020, certain items of buildings improvement and equipment were fully depreciated but are still in use. The gross carrying amount (before deducting accumulated depreciation) of those assets amounted to approximately Baht 648 million (2019: Baht 602 million) (The Company only: Baht 202 million and 2019: Baht 165 million).

The Company and its subsidiaries have pledged part of their land with constructions thereon, their book values as at 31 December 2020 are Baht 1,066 million (2019: Baht 946 million) (Separate financial statements: Baht 802 million, 2019: Baht 688 million), as collateral against credit facilities received from the commercial bank, and credit facilities of its subsidiaries.

14. Goodwill

Goodwill of The Bangkok Orthopedic Hospital Company Limited (a subsidiary) from a business acquisition, amounting to Baht 65 million, consisted of the business opportunities provided by acquiring a hospital ready to operate immediately from the acquisition date and future business expansion.

The recoverable amounts of the CGUs were determined based on value in use calculations made using cash flow projections covering a five-year period extracted from financial budgets approved by the management.

Key assumptions used in the value in use calculation are summarised below:

	(Unit: percent per annum)
	The Bangkok Orthopedic Hospital Company Limited
Growth rate	4.40 - 10.17
Discount rate	10.42

The management determined the growth rate based on historical operating results and expected market growth. The discount rate used reflects the risks specific to hospital business.

The management determined that there was no impairment of goodwill from the business acquisition.

15. Short-term loans from financial institutions

		(Unit: Thousand Baht)			
	Interest rate	Consolidated financial		Separate	
	(percent per annum)	statements		financial statements

	(Unit: Thousand Baht)					
	As at 31 December 2019					
	Consolidated financial statements			Separate financial statements		
	Less than 1 year	2 - 5 years	Total	Less than 1 year	2 - 5 years	Total
Future minimum lease payments	8,021	9,576	17,597	1,398	2,005	3,403
Deferred interest expenses	(678)	(424)	(1,102)	(115)	(95)	(210)
Present value of future minimum lease payments	7,343	9,152	16,495	1,283	1,910	3,193

c) Expenses relating to leases that are recognised in profit or loss

	(Unit: Thousand Baht)	
	For the year ended 31 December 2020	
	Consolidated financial statements	Separate financial statements
Depreciation expense of right-of-use assets	12,076	955
Interest expense on lease liabilities	4,802	115
Expense relating to short-term leases/ leases of low-value assets	786	304
Expense relating to variable lease payments	1,236	1,236

The company and its subsidiaries have lease contracts for tools and medical instruments that contains variable payments based on sales and usage. The lease term is 2 years.

19. Provision for long-term employee benefits

Provision for long-term employee benefits, which represents compensation payable to employees after they retire from the Company and its subsidiaries, was as follows:

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2020	2019	2020	2019
Provision for long-term employee benefits at beginning of year	48,381	28,766	11,382	7,814
Included in profit or loss:				
Current service cost	3,880	3,537	1,018	963
Interest cost	1,125	999	274	246
Employee rotation cost	-	-	-	(675)
Past service costs	-	9,141	-	1,946
Gain or loss on settlement	-	(90)	-	13
Included in other comprehensive income:				
Actuarial (gain) loss arising from				
Demographic assumptions changes	-	374	-	90
Financial assumptions changes	-	6,439	-	1,800
Experience adjustments	(750)	1,525	-	(419)
Benefits paid during the year	(3,369)	(2,310)	-	(396)
Provisions for long-term employee benefits at end of year	49,267	48,381	12,674	11,382

The Company and its subsidiaries expect to pay Baht 1 million of long-term employee benefits during the next year (Separate financial statements: Nil) (2019: Baht 3 million, separate financial statements: Nil).

As at 31 December 2020, the weighted average duration of the liabilities for long-term employee benefit is 8 - 18 years (Separate financial statements: 18 years) (2019: 8 - 18 years, separate financial statements: 18 years).

Significant actuarial assumptions are summarised below:

	(Unit: percent per annum)			
	Consolidated financial statements		Separate financial statements	
	<u>2020</u>	<u>2019</u>	<u>2020</u>	<u>2019</u>
Discount rate	1.19 - 2.52	1.19 - 2.52	1.19 - 2.52	1.19 - 2.52
Future salary increase rate	5.00	5.00	5.00	5.00
Staff turnover rate	0.00 - 30.00	0.00 - 30.00	0.00 - 25.00	0.00 - 25.00

The result of sensitivity analysis for significant assumptions that affect the present value of the long-term employee benefit obligation as at 31 December 2020 and 2019 are summarised below:

		(Unit: Thousand Baht)			
		31 December 2020			
		Consolidated		Separate	
		financial statements		financial statements	
	(% per annum)	<u>Increase</u>	<u>Decrease</u>	<u>Increase</u>	<u>Decrease</u>

24. Earnings per share

Basic earnings per share is calculated by dividing profit for this year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

	Consolidated financial statements		Separate financial statements	
	<u>2020</u>	<u>2019</u>	<u>2020</u>	<u>2019</u>
Profit for the period (Thousand Baht)	186,278	199,822	137,057	158,475
Weighted average number of ordinary shares (Thousand shares)	570,665	570,665	570,665	570,665
Earnings per share (Baht per share)	0.33	0.35	0.24	0.28

25. Segment information

The Company and its subsidiaries are principally engaged in the hospital business. A subsidiary is engaged in operating a vocational school, but revenue from this business is immaterial. Therefore, revenues, operating profit and total assets presented in the financial statements relate to the said principal business.

Geographic information

The Company and its subsidiaries operate in Thailand only. As a result, all of the revenues and assets as reflected in these financial statements pertain exclusively to this geographical reportable segment.

Major customer

For the year 2020, the Company and its subsidiaries have revenues from one major customer in amount of Baht 553 million, arising from hospital business (2019: Baht 461 million derived from one major customer, arising from hospital business).

26. Provident fund

The Company, its subsidiaries and its employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. The Company, its subsidiaries and its employees contribute to the fund monthly at the rate of 2 percent of basic salary. The fund, which is managed by the American International Assurance Company Limited, will be paid to employees upon termination in accordance with the fund rules. The contributions for the year 2020 amounting to approximately Baht 5 million (2019: Baht 5 million) (The Company only: Baht 2 million and 2019: Baht 2 million) were recognised as expenses.

27. Dividends

Dividends	Approved by	Total dividends (Thousand Baht)	Dividend per share (Baht)
Final dividends for 2018	The Annual General Meeting of the shareholders on 22 April 2019	68,480	0.12
Total dividends for 2019		68,480	0.12
Final dividends for 2019	The Annual General Meeting of the shareholders on 24 April 2020	79,893	0.14
Total dividends for 2020		79,893	0.14

28. Commitments and contingent liabilities

28.1 Capital commitments

As at 31 December 2020, the Company and its subsidiaries had capital commitments relating to the construction of buildings and the buildings improvement of approximately Baht 97.4 million (2019: Baht 88.2 million) (The Company only: Baht 95.9 million and 2019: Baht 72.2 million), and relating to medical service system and acquisition of medical devices and hospital equipment of approximately Baht 1.8 million (2019: Baht 42.4 million) (The Company only: Baht 1.8 million and 2019: Baht 5.0 million).

28.2 Service commitments

The Company and its subsidiaries have entered into consulting, cleaning services provider, security services provider, medical equipment maintenance service, and other service agreements with unrelated parties.

As at 31 December 2020, future minimum payments required under those service contracts were contracting to Baht 19 million (2019: Baht 25 million) (The Company only: Baht 7 million and 2019: Baht 9 million).

28.3 Guarantees

(a) The Company has guaranteed bank credit facilities of its subsidiary amounting to Baht 88 million (2019: Baht 88 million).

(b) There were outstanding bank guarantees issued by banks on behalf of the Company and its subsidiaries in respect of certain performance bonds as required in the normal course of business as follows:

	Consolidated		(Unit: Million Baht)	
	financial statements		Separate	
	2020	2019	2020	2019
Bank guarantees for the medical treatment service contracts with the Social Security Office	17	20	11	10
Bank guarantees for the medical treatment service contracts with the National Health Security Office	4	4	-	-
Bank guarantees for electricity use	4	4	1	1
Bank guarantees for other proposes	1	4	-	3

28.4 Cancellation of public health services of National Health Security Office

According to the announcement of National Health Security Office (“NHSO”) regarding the termination of agreements with clinics and private hospitals for their alleged involvement in fraud, on 18 September 2020, NHSO issued a letter to terminate the public health service agreement with Vichaivej Yaekfaichai Hospital (“subsidiary”). Management of such subsidiary had initially investigated the fact and found that the subsidiary did not violate the law. At present, no state agencies take legal action against the hospital and Management expects that there will be no damage to the subsidiary arising from this case.

29. Financial instruments

29.1 Financial risk management

The Company and its subsidiaries’ financial instruments principally comprise cash and cash equivalents, trade receivables, short-term loans, long-term loans and lease liabilities. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Company and its subsidiaries are exposed to credit risk primarily with respect to trade accounts receivable, deposits with banks and financial institutions. The maximum exposure to credit risk is limited to the carrying amounts as stated in the statement of financial position.

Foreign currency risk

The Company and its subsidiaries had no exposure to foreign currency risk as they rarely have not transactions denominated in other currencies.

Interest rate risk

The Company and its subsidiaries exposure to interest rate risk relates primarily to its long-term loans. However, since most of the Company’s and its subsidiaries’ financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate, the interest rate risk is expected to be minimal.

Liquidity risk

The Company and its subsidiaries have assessed the concentration of risk with respect to refinancing its debt and concluded it to be low.

29.2 Fair values of financial instruments

Since the majority of the Company's and its subsidiaries' financial instruments are short-term in nature or carrying interest at rates close to the market interest rates, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

A fair value is the amount for which an asset can be exchanged or a liability settled between knowledgeable, willing parties in an arm's length transaction. The fair value is determined by reference to the market price of the financial instruments or by using an appropriate valuation technique, depending on the nature of the instrument.

30. Capital management

The primary objective of the Company and its subsidiaries' capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value. As at 31 December 2020, the Company and its subsidiaries' debt-to-equity ratio was 0.65:1 (2019: 0.70:1) and the Company's was 0.45:1 (2019: 0.45:1).

31. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 22 February 2021.
